Paper Windmill Template

You will need : this template printed, scissors, a paper straw and a split pin.

1. Use your scissors to cut around the square below.
2. Then cut along the four dotted lines towards the centre of the square.
3. Take all the corners marked 'X' and bend them to the black circle in the centre.
4. Hold all the corners in the centre and gently push a pin through each layer. Be careful, as the pin will be sharp at the back.
5. Put the straw on the back of the windmill and push the split pin through the straw.
6. Split the back of the pin apart.
7. Gently blow on the side of the windmill to see it spin!
