How could your family improve the way they listen to each other?

### Draw

Ask someone at home to play a drawing game with you.

Choose an animal (don't tell the other person which animal it is).

Without saying the animal's name, try to describe it to the other person and see if they can draw it by following your instructions. Can they guess what animal it is?

Now it's your turn to have a go!

### Play

Find someone at home to play this game with.

Who can guess the most sounds in this quiz clip?
