

RIGHT TRACKS TOGETHER

LYRIC SHEET

VERSE 1

Facing a mountain
Somehow got to climb it
Don't know where to start
Don't know how to find
The strength to believe
That alone I'll achieve it
But we know it's possible
When we use teamwork

With you and me, and him and her
We all can see what we're here for
With everyone we're much more able
Cos we all bring different gifts to the table

CHORUS

*Together, we work much better
Together, we're all gonna get there
Together, we're all going do our best
Together, two heads better than one
Together, even better with another one
Together, we're all gonna do our best
Together we pass the test*

VERSE 2

No need to feel lonely
One bit isolated
Remember that feeling
When we collaborated
Don't have to feel small
Because this strength is ours
With co-operation
We find we've got powers!

With her and him and you and me
We all can find new abilities
It's clear to all, it's plain to see
We're stronger working in harmony

CHORUS

*Together, we work much better
Together, we're all gonna get there
Together, we're all going do our best
Together, two heads better than one
Together, even better with another one
Together, we're all gonna do our best*

We listen to our friends' ideas
Help them through all of their fears
Pick them up when they are down
We're always here to lend a hand
Contribute when we can
Cos as a team we have found...

CHORUS

*Together, we work much better
Together, we're all gonna get there
Together, we're all going do our best
Together, two heads better than one
Together, even better with another one
Together, we're all gonna do our best
Together we pass the test*
