

CARE FOR CREATION

A PRAYER FOR SPRING

Creator God,

Help us to see the beauty and lessons found in your creation as new life springs forth.

As flowers bloom and trees bud, reveal within us the areas where you are calling us to grow.

As the days stretch longer and the sun's warmth fills the air, guide us to make wise use of the precious gift of time.

As seeds are sown and gardens nurtured, show us how to tend the soil of our hearts, and remove that which hinders your work in us.

As we clean, redecorate and declutter our spaces, reveal to us what to cut off and remove in our lives that does not further your Kingdom.

We marvel at the beauty of your creation as new life emerges all around us.

As we witness the transformation of your world, teach us to cherish and care for the Earth as faithful stewards of your creation, and grow ourselves alongside it.

Amen.
