

FamilyLife

In a world where exclusion and cancellation have become far too common, many groups – such as refugees, LGBTQ+ individuals, people with disabilities, single parents, those facing poverty, and anyone carrying the weight of past mistakes – are often pushed to the margins, ignored or made to feel unwelcome.

Inclusion within church and family stands as a powerful reflection of God's loving design for community, where every person is invited, cherished and empowered to thrive. In embracing diversity, we create spaces of deep belonging, mutual support and transformative joy.
